Al-Ahram For Plastic Manufacturing Co. (S.A.E)

Since its inception in 1990, Al-Ahram Group has been a leading manufacturer of flexible and rigid plastic packaging in Egypt. For over three decades, we have combined innovation, technical expertise, modern technology, and continuous development to provide premium packaging solutions that protect products, enhance brand value, and support business growth.

In 1995, we established our operations in the industrial city of Suhag, where our roots run deep in the fertile lands of Upper Egypt. As architects of progress, we understand the importance of growth and resilience. In 2023, our strategic expansion into Badr City significantly increased our production capacity, allowing us to meet rising market demand and remain aligned with global industry trends.

Today, our production facilities in Suhag and Cairo extend across nearly 60,000 sqm of manufacturing space equipped with advanced machinery. We produce a wide variety of flexible and rigid plastic packaging products. With over 600 dedicated employees and a leadership team committed to excellence, we serve more than 250 clients across domestic, regional, and international markets.

Our wide range of products showcases our commitment to high-quality, validated by quality certifications, and a pursuit of excellence that inspires client trust.

At Al-Ahram Group, we are committed to delivering innovative, sustainable, and trusted packaging solutions, shaping a future built on quality, innovation, and trusted partnerships.

Mission

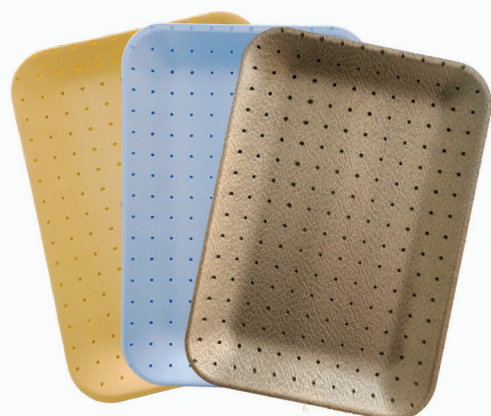

Our Mission is to innovate and deliver premium plastic packaging solutions that advance the industry while fostering environmental stewardship and social well-being. We are dedicated to excellence in manufacturing, customer satisfaction, respect for end users, and continual improvement, ensuring that our products not only meet but exceed the expectations of our stakeholders and contribute positively to the economies wherever we work.

Vision

To be a benchmark for the responsible plastic and packaging industry, recognized for innovation, sustainability, and operational excellence. We aim to set new standards through advanced technology and a commitment to environmental progress, and driving growth as a leading partner in smart, sustainable packaging solutions.

Absorbent Foam Trays

Designed to keep food fresh and appealing by effectively absorbing excess liquids, each tray can absorb several times its own weight in fluids. Available in a wide range of colors and three sizes (rectangular 1000 mg, 500 mg, and poultry 1000 mg), these trays are made from high-quality polystyrene foam, lightweight, hygienic, and durable. Ideal for packaging meat, poultry, and seafood in supermarkets or food processing facilities.
